HOW TO CITE RULES AND RSMo

RULES—Cite material in the *Missouri Register* by volume and page number, for example, Vol. 28, *Missouri Register*, page 27. The approved short form of citation is 28 MoReg 27.

The rules are codified in the *Code of State Regulations* in this system—

Title	Code of State Regulations	Division	Chapter	Rule
1	CSR	10-	1.	010
Department		Agency, Division	General area regulated	Specific area regulated

They are properly cited by using the full citation , i.e., 1 CSR 10-1.010.

Each department of state government is assigned a title. Each agency or division within the department is assigned a division number. The agency then groups its rules into general subject matter areas called chapters and specific areas called rules. Within a rule, the first breakdown is called a section and is designated as (1). Subsection is (A) with further breakdown into paragraph 1., subparagraph A., part (I), subpart (a), item I. and subitem a.

RSMo—The most recent version of the statute containing the section number and the date.

Under this heading will appear the text of proposed rules and changes. The notice of proposed rulemaking is required to contain an explanation of any new rule or any change in an existing rule and the reasons therefor. This is set out in the Purpose section with each rule. Also required is a citation to the legal authority to make rules. This appears following the text of the rule, after the word "Authority."

Entirely new rules are printed without any special symbolology under the heading of the proposed rule. If an existing rule is to be amended or rescinded, it will have a heading of proposed amendment or proposed rescission. Rules which are proposed to be amended will have new matter printed in boldface type and matter to be deleted placed in brackets.

An important function of the *Missouri Register* is to solicit and encourage public participation in the rulemaking process. The law provides that for every proposed rule, amendment or rescission there must be a notice that anyone may comment on the proposed action. This comment may take different forms.

If an agency is required by statute to hold a public hearing before making any new rules, then a Notice of Public Hearing will appear following the text of the rule. Hearing dates must be at least thirty (30) days after publication of the notice in the *Missouri Register*. If no hearing is planned or required, the agency must give a Notice to Submit Comments. This allows anyone to file statements in support of or in opposition to the proposed action with the agency within a specified time, no less than thirty (30) days after publication of the notice in the *Missouri Register*.

An agency may hold a public hearing on a rule even though not required by law to hold one. If an agency allows comments to be received following the hearing date, the close of comments date will be used as the beginning day in the ninety (90)-day-count necessary for the filing of the order of rulemaking.

If an agency decides to hold a public hearing after planning not to, it must withdraw the earlier notice and file a new notice of proposed rulemaking and schedule a hearing for a date not less than thirty (30) days from the date of publication of the new notice.

Proposed Amendment Text Reminder:

Boldface text indicates new matter.

[Bracketed text indicates matter being deleted.]

ed by reference as a portion of this rule would be unduly cumbersome or expensive. This note applies only to the reference material. The entire text of the rule is printed here.

PURPOSE: The purpose of this rule is to implement a process for the commission to entertain requests for expanded local calling area plans that provide toll-free or discounted calling within a community of interest.

(1) Definitions. For the purposes of 4 CSR 240-2.061 the following definitions are applicable:

(A) Alternative local exchange telecommunications company is a local exchange telecommunications company certified by the commission to provide basic or nonbasic local telecommunications service or switched exchange access service, or any combination of such services, in a specific geographic area subsequent to December 31, 1995.

(B) Community of interest is a group of people connected by a common calling interest or need. Community of interest includes, but is not limited to, community calling to medical services providers, educational institutions, governmental or social service offices, and commercial centers.

(C) Expanded local calling area plan(s) is a plan(s) that provides toll-free or discounted calling prices to designated exchanges within a community of interest.

(D) Illustrative tariff sheets are tariff sheets which comply with 4 CSR 240-3.545 except that such tariff sheets do not contain an issued and effective date.

(E) Incumbent local exchange telecommunications company is a local exchange telecommunications company authorized to provide basic local telecommunications service in a specific geographic area as of December 31, 1995, or a successor in interest to such company.

(F) Inter-carrier compensation describes the financial arrangement used to compensate other telecommunications carriers for the use of their respective facilities in transmitting a telecommunications call.

(G) Local exchange telecommunications service is telecommunications service between points within an exchange.

(H) Metropolitan calling area (MCA) is an expanded calling area in the three (3) metropolitan areas allowing calling within and/or to metropolitan exchanges around St. Louis, Kansas City and Springfield at tiered rates. MCA telecommunications traffic originates, transits, and/or terminates pursuant to terms and conditions the Public Service Commission established in MoPSC Case Numbers TO-92-306 and TO-99-483 or as subsequently modified by commission order or rule.

(I) Subscribers are persons or companies that have contracted to receive telecommunications services.

(2) An application filed with the commission shall initiate a request for an expanded local calling area plan. The specific provisions herein shall supercede general rules contained elsewhere in this chapter. An application may be filed on behalf of:

(A) At least fifteen percent (15%) of the local exchange telecommunications service subscribers within the requesting exchange; or

(B) A governing body of a municipality or school district within the requesting exchange.

(3) The application shall comply with 4 CSR 240-2.060 and shall clearly identify and include:

(A) A description of the expanded local calling area plan;

(B) A statement explaining how the proposed plan will satisfy the objectives of the community of interest;

(C) The proposed price and terms of the plan;

(D) A statement of whether the proposed plan will be optional or mandatory for all customers in the expanded local calling scopes;

(E) A statement as to the toll or local classification of the calling plan traffic and associated inter-company compensation, if any, to be utilized to facilitate the plan; and

(4) Each page of a petition attached to an application shall clearly identify the information in subsections (3)(A), (3)(C), (3)(D) and (3)(E) above.

(5) The commission will provide notice of the filing of the application to all incumbent local exchange telecommunications companies in the affected area and to all alternative local exchange telecommunications companies except those companies only providing prepaid local telecommunications service. The filing of the application will initiate an Electronic Filing and Information System (EFIS) notification to all interexchange telecommunications carriers. All notifications shall include instructions on how to obtain a copy of the application.

(6) Any incumbent local exchange telecommunications company serving any exchange proposed to be affected by the application shall automatically be made a party to the case.

(7) Within sixty (60) days after the filing of the application, the commission shall convene a conference of the parties. The purpose of the conference is to discuss, at a minimum, the application and determine if any modifications should be made to the application.

(8) During the conference in section (7) above, the parties shall explore how the application's proposal could be technically implemented in the most efficient manner consistent with the community of interest. The parties shall also explore the appropriate intercarrier compensation arrangement. If the application proposes a mandatory toll-free plan or an expansion of the metropolitan calling area plan, the parties shall explore an intercarrier compensation arrangement that does not involve access charges.

(9) The applicant shall file with the commission either a statement that the application remains unchanged or alternatively identify specific modifications to the application as a result of the conference in section (7) above.

(10) Within ten (10) days after the applicant's filing in section (9) above, any party objecting to the application as proposed may file with the commission, a pleading explaining why the applicant's proposal is not acceptable.

(11) Within ninety (90) days after the filing in section (9) above, any telecommunications carrier directly affected by the proposal shall file illustrative tariff sheets to implement the applicant's proposal.

(12) The illustrative tariff sheets shall identify all rate adjustment(s) necessary to implement the applicant's proposal. The company shall simultaneously file supporting documentation if it proposes to increase or establish new rates designed to maintain revenue neutrality, including the recovery of any new costs associated with implementing the proposal.

(13) The commission may hold public hearings and/or meetings in locations affected by the application.

(14) After receipt of the illustrative tariff sheets in section (12) above, the commission may hold a hearing or other appropriate proceeding. The parties will provide evidence to assist the commission in its findings.

(15) The commission, in its findings, will determine whether the proposed calling plan is just, reasonable, affordable, and in the public interest. In making these determinations, the commission will consider evidence on the competitive implications, revenue impacts, and company and social costs of implementing the proposed expanded calling plans balanced against the objectives of the community of interest. The commission will also weigh any costs against benefits to the community of interest when making its determination.

(16) The commission may modify the proposed rates, terms or conditions in its decision on the application.

**FISCAL NOTE
PRIVATE ENTITY COST**

I. RULE NUMBER

Title: 15 - Elected Officials

Division: 60 - Attorney General

Chapter: 13 - Rules for the Establishment of a Missouri No-Call Database

Type of Rulemaking: Proposed Amendment

Rule Number and Name: 15 CSR 60-13.060 - Methods by Which a Person or Entity Desiring to Make Telephone Solicitations Will Obtain Access to Database of Residential Subscribers' Notices of Objection to Receiving Telephone Solicitations and the Cost Assessed for Access to the Database.

II. SUMMARY OF FISCAL IMPACT

Estimated number of entities which would likely be affected by the adoption of the proposed rule:	Classification by types of the business entities which would likely be affected:	Annualized estimate in the aggregate as to the cost of compliance with the rule by the affected entities:
506 *	* Home improvement, alarm companies, funeral homes/monument companies, long distance phone companies, local exchange phone companies, suppression list companies, information companies, heating and cooling, mortgage companies, insurance agents, real estate companies, stockbrokers, magazine publishing and direct marketing corporations, carpet cleaners, chiropractors, car dealers, vacation/travel related companies, resort/time share companies, roofing and remodeling, insurance-health/life, financial organizations, certified public accountants, window companies, hearing aid companies, bottled water companies, photography, Internet service providers, for-profit companies representing handicapped/disabled, credit cards, satellite TV/cable companies, credit card protection companies, fine arts/orchestra, dance clubs, appliance repairs company, gambling organizations, Tupperware/Mary Kay/special utensils, lawn care, newspapers, voice mail/beeper services.	\$ 464,800

* The numbers set out in the summary of Fiscal Impact regard the annual cost for the life of the rule. The numbers cannot be estimated with greater specificity than contained in this fiscal note because business entities often vary their operating practices. The cost in the aggregate could exceed \$500 but are unquantifiable. The fiscal note serves notice to businesses that utilize telephone solicitations that they may incur costs which will vary greatly dependent upon their use of telephone solicitations. For purposes of this amendment we have drawn on the Attorney General's Office experience in the of operation of the no-call database. There are currently six area codes used in Missouri. The number of telephone solicitors who subscribed to the no-call database for the first quarter of 2005 was 506. Those telephone solicitors subscribed to a total of 2324 area codes for that quarter. The costs per entity are derived from dividing the product of costs per quarter per area code times the number of quarters in a year times 2324 by 506.

III. WORKSHEET

Type of costs per entity	FY 05	FY 06	FY 07	FY 08
Database acquisition cost	\$688.93	\$918.58	\$918.58	\$ 918.58
Implementation of database by business entity	*	*	*	*
Exclusion determination process	**	**	**	**
Totals per entity	\$688.93***	\$918.58***	\$918.58***	\$918.58***
Totals for all affected entities	\$348,600	\$464,800	\$464,800	\$464,800

Businesses using telephone solicitations should expect annual costs after FY 05 for the life of the rule as set out in FY 05.

*1. As indicated in the Assumptions, this cost is impossible to determine without knowing the business set-up, but is expected to be a nominal cost.

**2. As indicated in the Assumptions, this cost is impossible to determine without knowing the business set-up, but is expected to be a nominal cost.

***3. Includes any charges in the implementation of the database and exemption determination process.

IV. ASSUMPTIONS

1. All business entities who use telephone solicitations are required to obtain and use the no-call database for their business operations. The annual cost of obtaining the entire database is \$300/quarter or \$1200/year. The business entities have been required to use the list as of July 1, 2001.

2. Determining the number and types of entities affected by these rules cannot be estimated with greater precision than appear herein because the rule could apply to any business entity that uses telephone solicitations. Additionally, the needs of specific businesses will change and so will the use of telemarketing. In an effort to provide information to all the potential entities impacted, we have drawn on our experience in operating the no-call database. Missouri had 506 entities subscribing to obtain all or parts of the database for the first quarter of 2005, a number slightly higher than each of the previous three quarters. Missouri currently uses six area codes. Those 506 telemarketers requested a total of 2324 area code disks for the first quarter of 2005.

3. The second portion of potential costs consists of the implementation of the database into its daily operations. Each business entity will exercise its own control on how to use the database. For that reason, the cost of implementation, if any, will vary and cannot be estimated with greater specificity than appears in this fiscal note. The remaining cost issue is the determination of whether a particular entity will incur costs to determine its exemption status. Again, what entities will use "telephone solicitations" will vary greatly. For this reason, aggregate costs are not quantifiable with greater specificity than appears within this fiscal note. The database acquisition and implementation costs will be annual charges recurring in perpetuity. The exemption process should be a one time charge, assuming no change in a business entity's business practice. The annual costs commenced in FY 01 and continue for the indefinite life of the rule.

SUMMARY OF COMMENTS: No comments were received.

**Title 5—DEPARTMENT OF ELEMENTARY AND
SECONDARY EDUCATION
Division 50—Division of School Improvement
Chapter 340—School Improvement and Accreditation**

ORDER OF RULEMAKING

By the authority vested in the State Board of Education under sections 160.720 and 161.092, RSMo Supp. 2004, the board adopts a rule as follows:

5 CSR 50-340.150 is adopted.

A notice of proposed rulemaking containing the text of the proposed rule was published in the *Missouri Register* on November 15, 2004 (29 MoReg 1806–1808). Those sections with changes are reprinted here. This proposed rule becomes effective thirty (30) days after publication in the *Code of State Regulations*.

SUMMARY OF COMMENTS: The board received five (5) comment letters on the proposed rule.

COMMENT: Four (4) comments were received from administrators from the North Kansas City School District. They expressed concerns regarding identifying only Title I schools already in school improvement.

RESPONSE: Their concerns were that these schools would have additional financial penalties for being identified as priority schools. The only financial penalty attached to the designation of priority schools occurs if the school district fails to submit an improvement plan by the legal deadline. This is a penalty that is imposed by the priority schools law. The board has carefully reviewed the comments and decided to make no changes to the proposed rule.

COMMENT: The Missouri School Boards Association (MSBA) provided comments to the rule. Their first comment concerned the naming of previously identified academically deficient schools as automatically being designated as priority schools. MSBA's concern is that most of those schools would not meet the new designation criteria, so the automatic designation is unfair to them.

RESPONSE: It is true that some of the previously identified academically deficient schools would not meet the new priority schools criteria. However, with the repeal of the academically deficient schools law, these schools had no method for removing that designation. The automatic priority schools designation allows for a transition from one label to another. The board has carefully reviewed the comment and decided to make no changes to the proposed rule.

COMMENT: MSBA also requested clarification in subparagraph (1)(B)1.A. regarding the assessment results used for determining priority schools status.

RESPONSE AND EXPLANATION OF CHANGE: In order to clarify the meaning, the language in subparagraph (1)(B)1.A. is modified to include the word "state" be inserted before "required subject areas . . ." and is reprinted here for clarity.

COMMENT: Clarification was requested regarding the same section and the bottom five percent (5%) of the state's population indicator.

RESPONSE: It is our belief that the fairest way to define the bottom five percent (5%) is by student population, not school buildings. This is fairer for the tremendous size differential in school buildings in this state. By using the student population, building size does not enter into the calculation. The board has carefully reviewed this comment and decided to make no changes to the proposed rule.

COMMENT: A third comment from MSBA requested clarification regarding the use of dropout and graduation rates as identification criteria.

RESPONSE: The board believes that the current wording is clear; therefore, there will be no changes.

COMMENT: A final comment was regarding the wording in subsection (1)(C) which pertains to the criteria for moving off the priority schools list.

RESPONSE: The priority schools law requires the Department of Elementary and Secondary Education to use school safety as an identification criterion. The only such measurement we have is the persistently dangerous designation. Since it is impossible for a school to become "more persistently dangerous," our interpretation of the "exceeds the identification criteria for two (2) successive years," will, for this criteria, mean that a school is no longer persistently dangerous.

5 CSR 50-340.150 Priority Schools

(1) The Department of Elementary and Secondary Education (DESE) shall designate priority school buildings or attendance centers (priority school(s)).

(B) Designation of priority schools is based upon the following criteria:

1. Beginning September 1, 2006, Title I schools in school improvement which meet any of the following:

A. Have assessment performance index scores for state required subject areas in the bottom five percent (5%) of the state population for two (2) successive years;

B. Have a school attendance rate of less than ninety percent (90%) for two (2) successive years;

C. Have a graduation rate and placement rate below seventy percent (70%) for two (2) successive years; or

D. Are identified persistently dangerous pursuant to state regulation.

RESPONSE AND EXPLANATION OF CHANGE: The board carefully reviewed the comments and would point out that the school districts may allow job sharing to anyone they choose. Therefore, sections (1), (2), and (3) are amended and section (4) is added and reprinted here for clarity.
